# Focus on Fishery Innovative Technology and Materials

The 4<sup>th</sup> Edition of the Taiwan Int'l Fisheries and Seafood Show (TIFSS) provides an all-encompassing and exclusive fishery trade show gathering representatives from private-sector, research institutes, academia and government.

Jointly organized by TAITRA (Taiwan External Trade Development Council) and My Exhibition, TIFSS's previous show in last November assembled 185 exhibitors from 20 countries, leveraging nearly 4,000m<sup>2</sup> and showcasing themes including fishery IoT, innovative materials in fishing, advanced aquaculture, and safety & traceable seafood. Other show highlights included six national pavilions, a seminar on aquaculture trends, one-on-one procurement meetings, a celebrity cooking class and the first-of-its-kind tuna dissection show.

Taiwan's fishery industry has been developing for over a century where its fishing gear, aquaculture methods, processing capabilities, packing levels and biotech skills are considered unique on a global scale. Taiwan's diversified food appetite and per capital seafood consumption is 1.7 times higher than the world average, making the island one of the markets with the greatest potential in Asia. For this reason, TIFSS 2017 welcomed 6,732 domestic and 575 international visitors from 56 countries, including key buyers (with annual sales exceeding US\$10 million) from Taiwan, China, Japan, Hong Kong, Vietnam, Indonesia, U.S.A., Canada, Singapore, Spain, Argentina and Romania. TIFSS 2018 will ride this momentum and extend invitations to key buyers from Vietnam, China, Malaysia, Indonesia, the Philippines, U.S.A., Thailand and more of the world's major fishery nations.

Come aboard TIFSS 2018 for Asia's best fishery show. We are bringing together top tech, brains and marketing networks and anticipating more than 7,000 visitors who are eager to embrace Taiwan's vast selection of fishery equipment, aquaculture tech and seafood.
