# Taiwan's Exclusive Fishery and Seafood Show

## With special Focus on Aquaculture Technology and Seafood Certification

The Taiwan Int'l Fisheries and Seafood Show (TIFSS), launched in 2015, is an exclusive Taiwanese fisheries trade show that gathers representatives from the fishing, aquaculture, and seafood processing, machinery and bio-tech industries. The event is supported by 16 fisheries-related associations and aims to deliver the latest technology, business and networking opportunities.

Jointly organized by TAITRA (Taiwan External Trade Development Council) and My Exhibition, TIFSS's previous show last September, assembled 180 exhibitors from 14 countries. The show highlights solar aquaculture systems, intelligent aquaculture total solutions and technology-friendly aquaculture. The show also featured three other national pavilions (including Indonesia, Latin American and South Pacific Nations), seminars on aquaculture trends, one-on-one procurement meetings, an 'Innovation Stage' and seafood cooking classes.

Taiwan's fishing industry has been developed for over a century. Its fishing gear, aquaculture methods, seafood processing capabilities, packing levels and biotech skills are considered unique on a global scale. Taiwan's diversified food appetite and seafood consumption per capital is 1.7 times higher than the world average, making the island one of Asia's highest potential markets. TIFSS 2019 therefore welcomed 6,208 domestic and 602 international visitors from 24 countries/regions, including key buyers from Taiwan, Romania, Vietnam, Singapore, Oman, Nigeria, U.S.A., Norway, Japan, France, Hong Kong and Australia. TIFSS 2020 will ride this momentum from the past five years and extend invitations to key buyers from many of the world's major fishing nations.

For the first time ever, TIFSS 2020 will be shown in Taipei. Join us at TIFSS 2020 for Asia's best fisheries and seafood show. We're gathering top tech, academic and marketing networks and anticipating more than 7,700 visitors eager to embrace Taiwan's vast selection of fishing equipment, aquaculture technology and seafood.
